AWA-W-2 Landscape 200mm x 130mm, x 29mm

AWA-W-3 Oblong 130mm x 175mm x 29mm

Material/s

Window: Our acrylic is produced from 100% recycled acrylic and is 100% recyclable at the end of its useful life if disposed of correctly, creating a full circular economy for the prevention of acrylic plastic waste ending up in landfill. Recycled acrylic uses a proprietary process for the recovery of the original solvent (PMA) for the production of new acrylic which can, in turn, be recycled countless times without ever losing its virgin quality. All of our acrylic factory waste is recycled for zero landfill production.

Oak: Oak is inherently renewable and sustainable when properly sourced and managed and we only use wood from suppliers with proven supply chain certification to international standards. As a natural material, wood has a lighter carbon footprint than almost all synthetic materials. All wood types simply biodegrade at end of life.

1p from every item made from sustainable materials will go towards our tree planting scheme. Every item made will help us plant 10k trees every year.

**nb. Wood products may vary to that shown. Being a completely natural material, it varies in colour, blemishes, grain and other inconsistencies - it adds greatly to the individuality of each order.*
