**nb. Bamboo products may vary to that shown (colour, blemishes, grain and other inconsistencies) - it adds greatly to the individuality of each order.*

Material/s

Xmas Trees: Moso® Bamboo material only comes from licensed managed forests and once harvested every 5 years is made in production facilities that are ISO 9001 quality and ISO 14001 environmental third party certified. It complies with the most stringent international material standards. Moso® bamboo combines all of the virtues of hardwoods with the immense growing capacity of the highly renewable giant Moso® bamboo species and can therefore act as a green carbon negative alternative material where no additional water or pesticides are needed. Bamboo material simply biodegrades at end of life. 1p from every item made from sustainable materials will go towards our tree planting scheme. Every item made will help us plant 20k trees every year.

Printing and Engraving on Bamboo: Bamboo is soft enough to get a beautiful deep engraving while hard enough not to burn and char. It has great ink adhesion for printing, with little or no colour change on process print.
